Option Code : **3609**

School Vision : Creative Learners, Upright Leaders, Global Thinkers

School Mission : To nurture East Springians to be self-directed, compassionate citizens with a passion for excellence and life-long learning

School Philosophy, Culture and Ethos

At East Spring Secondary School, we strive to enable all students to uncover their strengths and experience success, through a holistic curriculum anchored on innovative teaching and learning, as well as solid character and student leadership development. Aimed at moulding students into future-ready learners, teaching and learning experiences are designed to promote inquiry and application in real-world contexts, leveraging technology to stimulate students' curiosity and thinking. Character education and leadership development, infused in the school's CCE lessons and co-curriculum, are built on the belief that every student can be progressively developed into a leader of self and person of influence who makes a difference to the community. These outcomes are made possible with the commitment of a nurturing and synergistic staff, as well as the support and collaboration of parents and external partners. Through the diverse learning opportunities provided by the school, we are confident that every East Springian will emerge as a creative learner, upright leader and global thinker to meet the challenges of the 21st century.

Special Student Development Programmes Offered

The school's Holistic Education, Character and Citizenship Education (HDCCE) framework is designed based on 21st century learner competencies and the desired student outcomes of a confident person, self-directed learner, concerned citizen, and active contributor. The Global Thinkers Programme nurtures East Springians to be aware of global issues and developments that can have an impact on Singapore. Our Applied Learning Programme (ALP), 21st Century Innovators through Health Science, prepares students for the future through the learning and application of skills, concepts and knowledge related to health science. This unique programme allows students to acquire and apply critical thinking skills and develop dispositions of an inquiring mind. The school also seeks to develop student leadership skills through our distinctive Community Youth Leadership (CYL) Programme under the Learning for Life Programme (LLP). The programme, comprising both formal training and experiential learning opportunities, is designed for students to develop the self-awareness to lead self, as well as to influence others in making a difference to the community.
